

PROJECT APPLICANT: Hampton Resorts, LLC/Atlantic Hotel

PROJECT TITLE: I/A Hydro-action Treatment System

PROJECT TYPE: Wastewater Treatment Improvement Project

SCALE: Neighborhood/Watershed

APPROACH: Reduction

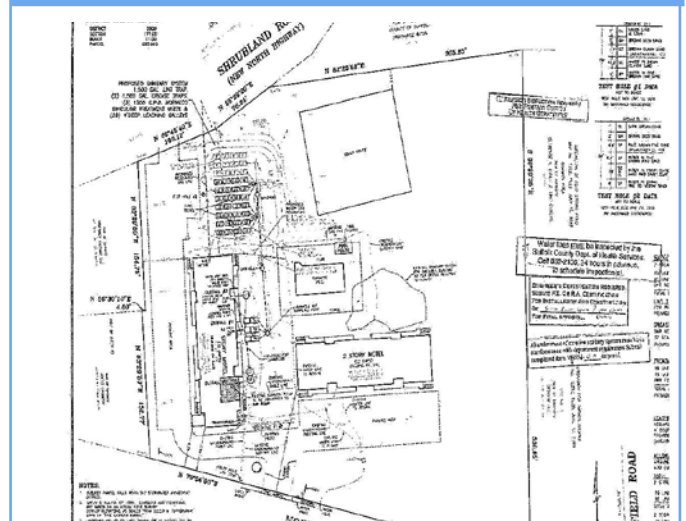

DESCRIPTION

This project proposes the abandonment of the existing conventional sanitary system for the “west building” on the existing hotel site and the installation of an I/A OWTS to be located in a similar location for the same building. The property is located within the High Priority Area with groundwater approximately 10’-13’ below grade, at an elevation of 11.5’ as per the test holes provided. The project proposes the installation of four (4) Hydro-Action AN1100 treatment tanks, two distribution boxes, and twenty-eight four foot deep leaching galleys.
